YOU  
WANNA KNOW  
WHY I'M THE BIG  
SHOT IN THIS PICTURE?  
IT'S BECAUSE I'M  
THE HERO OF  
THIS STORY...

OR AM I ???...  
YOU SEE, DOC WACKY  
INVENTED A MACHINE TO  
HYPNOTIZE PEOPLE AND IT  
WORKED SO WELL I WAS  
THE ONLY ONE LEFT WHO  
KNEW WHAT HE WAS  
DOING!

# SMASH COMICS

**A**N EVENING IN THE HOME OF DAVE CLARK, RADIO ANNOUNCER...

HEY, DAVE-- I MEAN MIDNIGHT... WHAT'S THE IDEA OF SITTING HERE IN YOUR MIDNIGHT OUTFIT?

I'M EXPECTING TROUBLE, SNIFFER SNOOP!

VINCE McGONIGLE'S BEEN BLOWING AROUND ABOUT DISCOVERING A SURE-FIRE WAY TO RUB OUT MIDNIGHT --SO I WANT TO BE READY!

I GET IT! IF YOU WENT AFTER HIM AS PLAIN DAVE CLARK, HE'D KNOW DAVE AND MIDNIGHT ARE THE SAME PERSON!

IF YOU WANT TO FOOL AROUND, IT'S YOUR BUSINESS --BUT AS THE WORLD'S GREATEST DETECTIVE, I COULD PROTECT YOU!

GAH! ... THE WORLD'S GREATEST NUISANCE IS MORE LIKE IT!

WHY, I REMEMBER WHEN I WAS BODYGUARDING A MILLIONAIRE --BLAH-BLAH-BLAH...

BALONEY! IF BRAINS WERE OATS, HE COULDN'T FARM THE DIRT BEHIND A GNAT'S EAR!

WHEN HE GOES OFF, I GO OUT! ... I'LL SEE WHAT DOC'S INVENTING TODAY!

HI, DOC! WHAT'S THAT, A SHAVING MIRROR FOR SIAMESE TWINS?

HELLO, GABBY! BEHOLD MY GREATEST AND MOST USEFUL INVENTION!

A REALLY USEFUL INVENTION WOULD BE SOMETHING TO DEFLATE THAT GAS-BAG, SNIFFER SNOOP!

WELL...

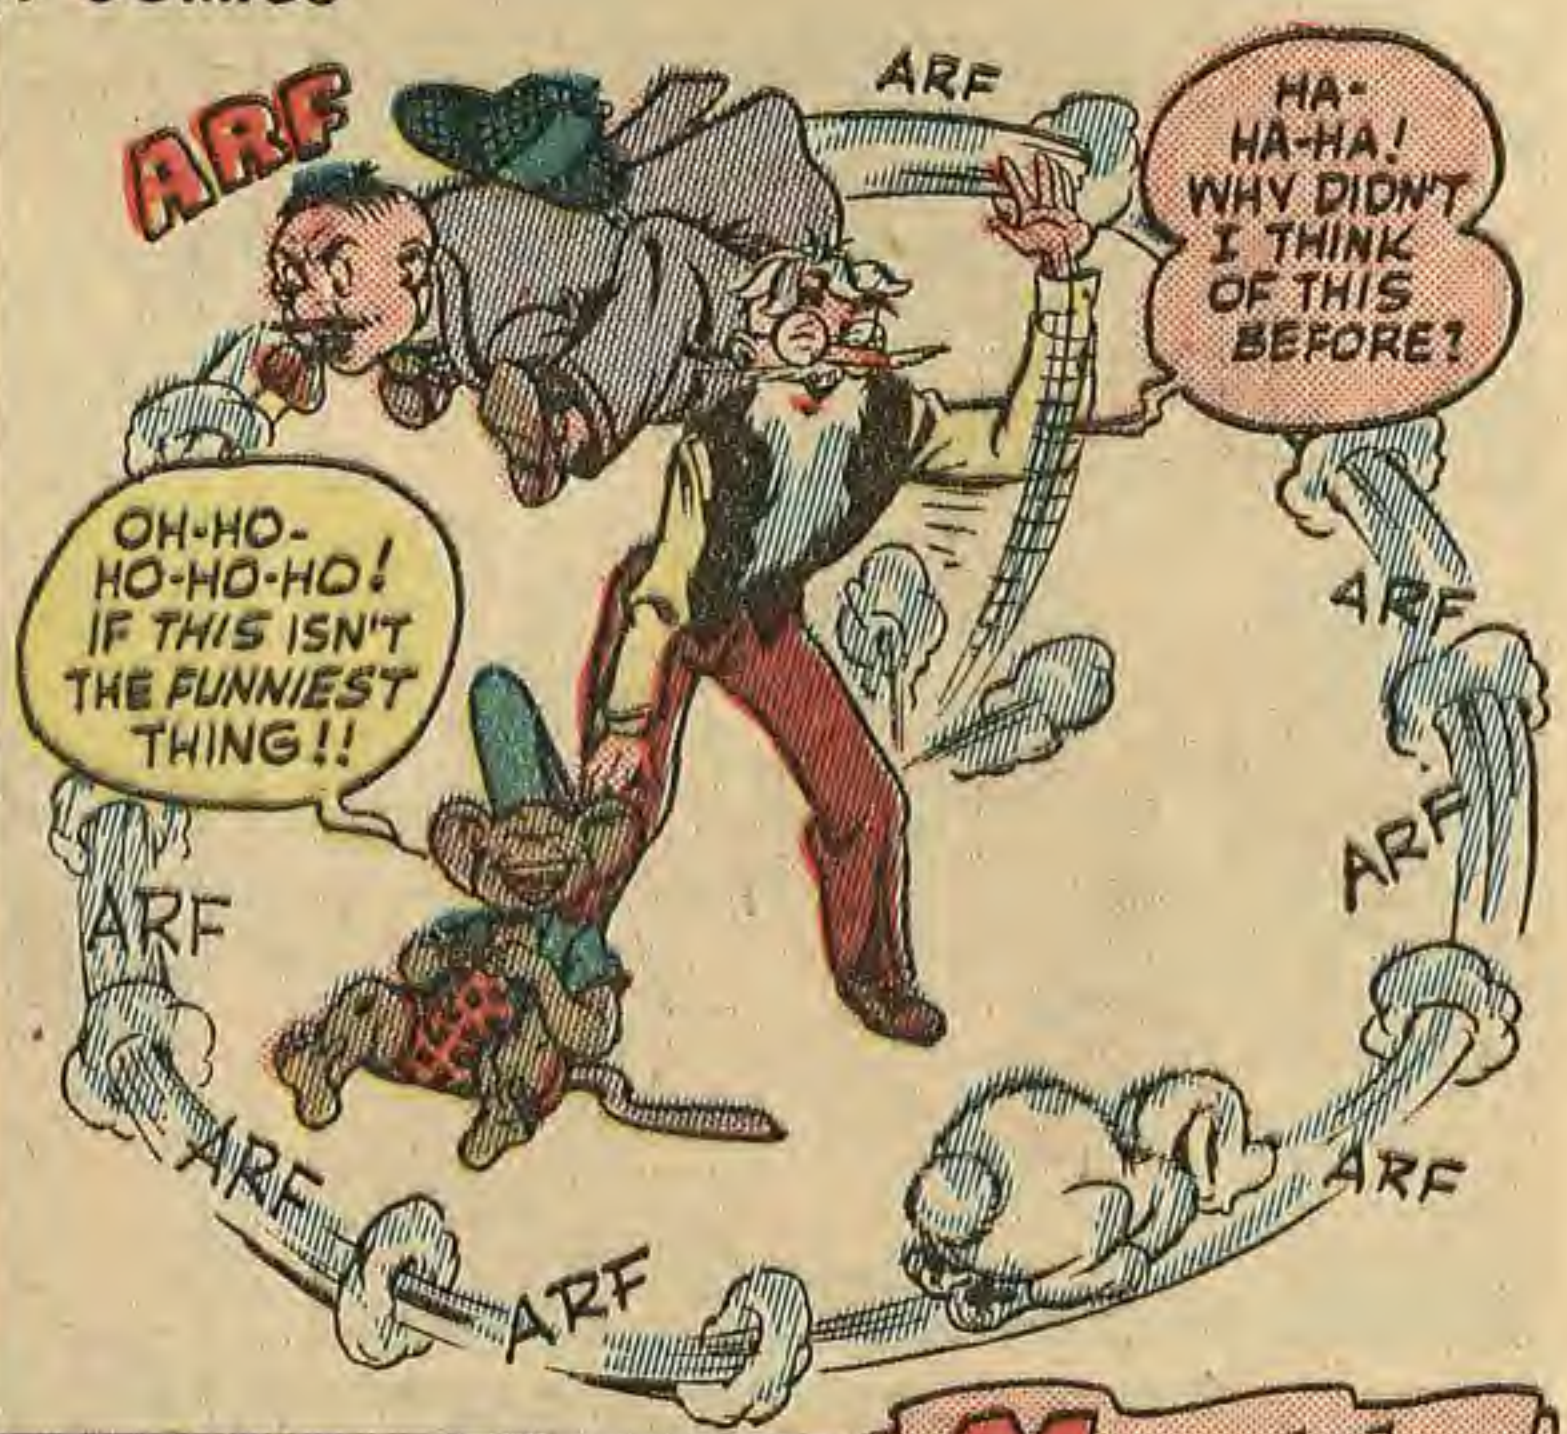

THAT'S EXACTLY WHAT IT IS!

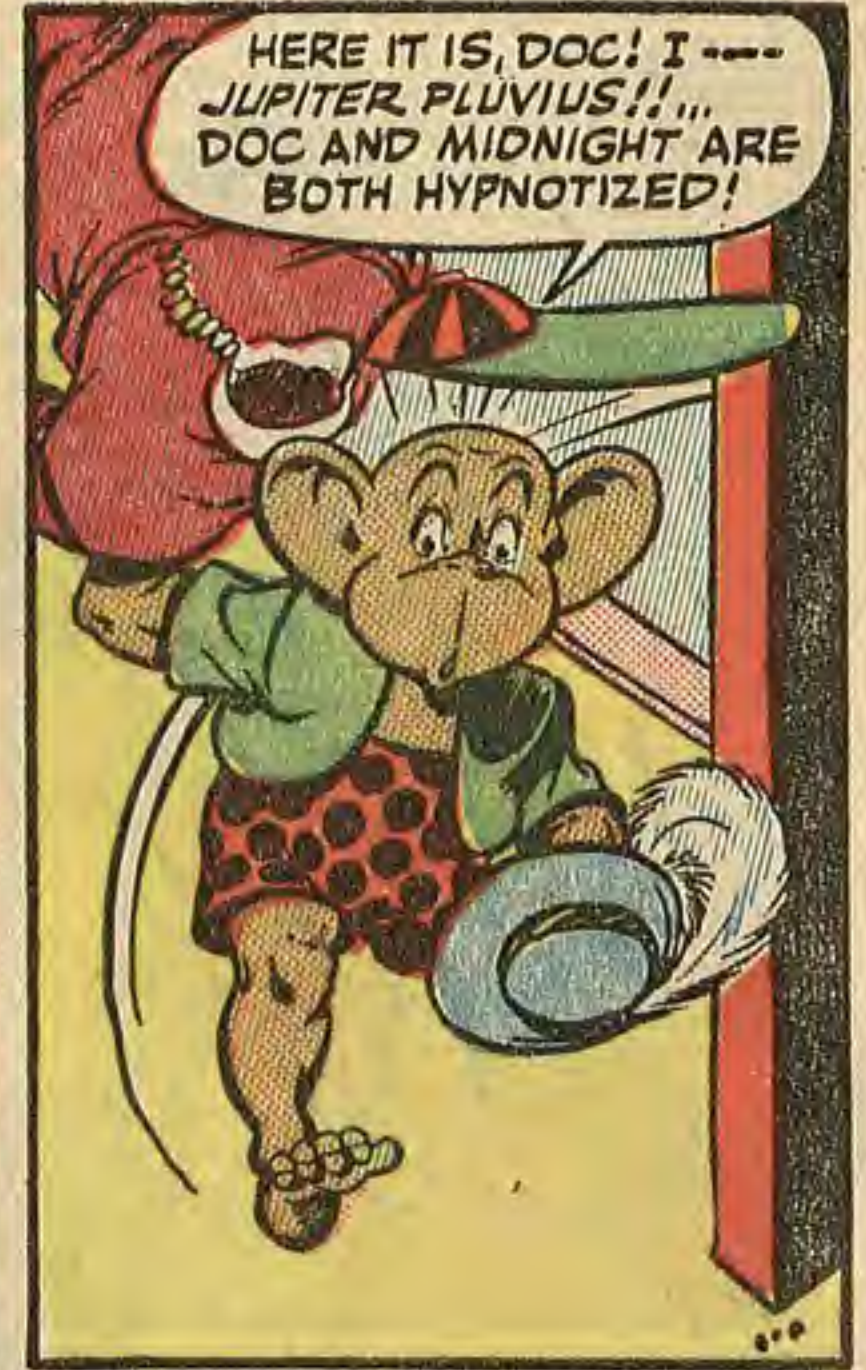

SMASH COMICS

Meanwhile, back in Doc Wackey's laboratory...

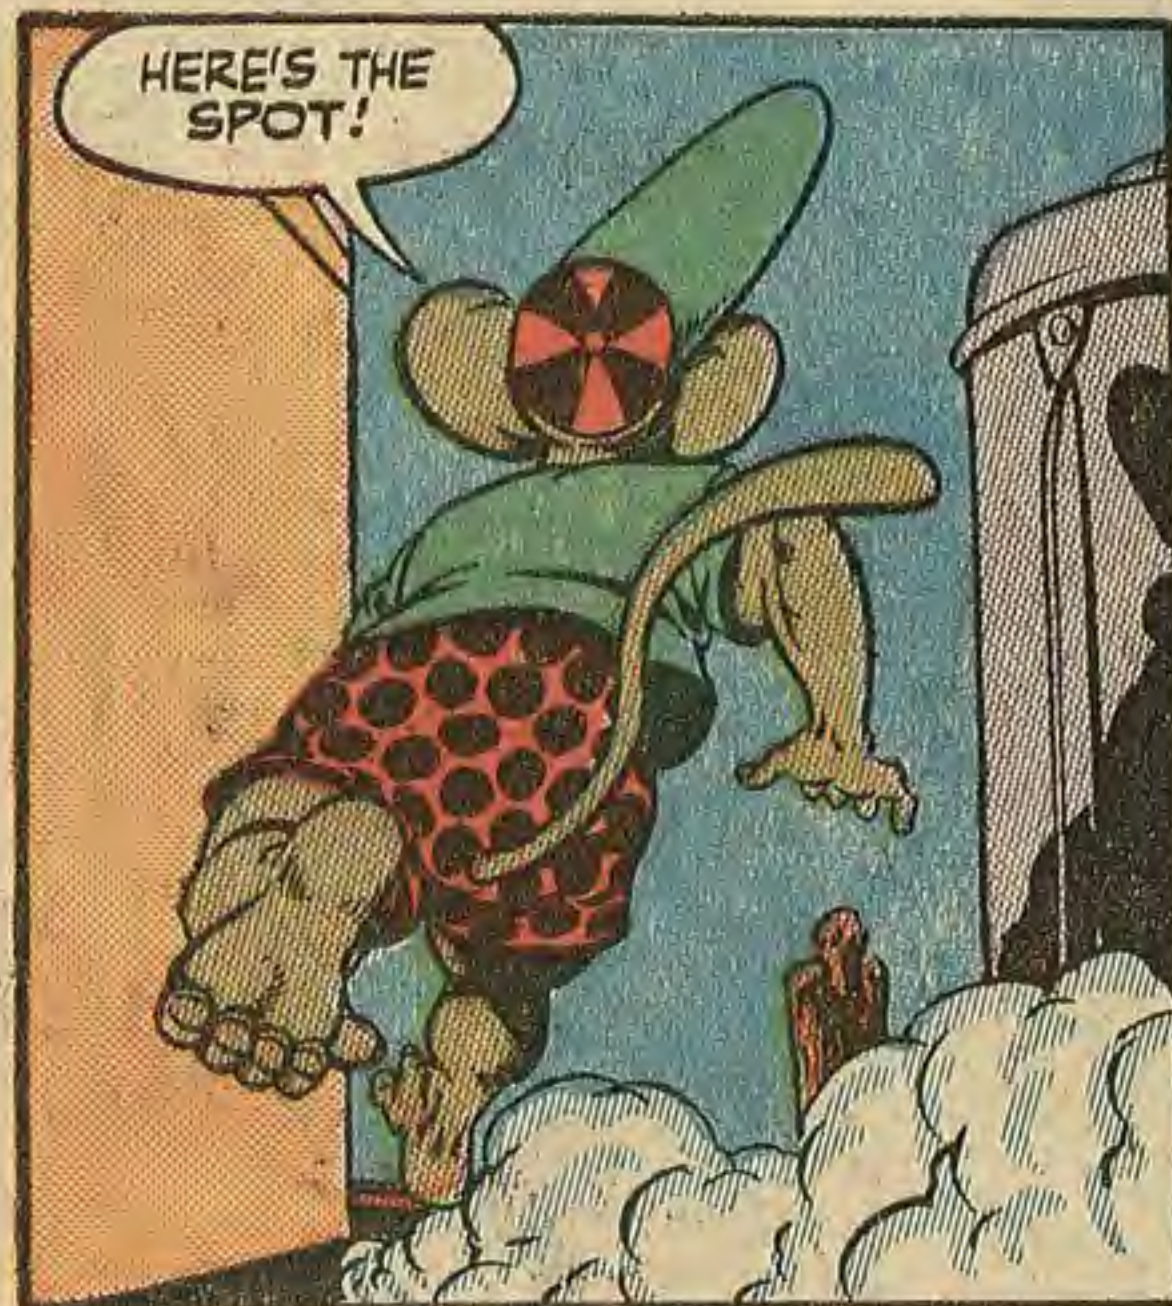

NOW LEMME GET MY HANDS  
ON THOSE TWO-BIT .....  
WOW! THEY'RE GONE  
-- AND THEY'VE TAKEN  
MIDNIGHT AND  
EVERYBODY WITH  
THEM!

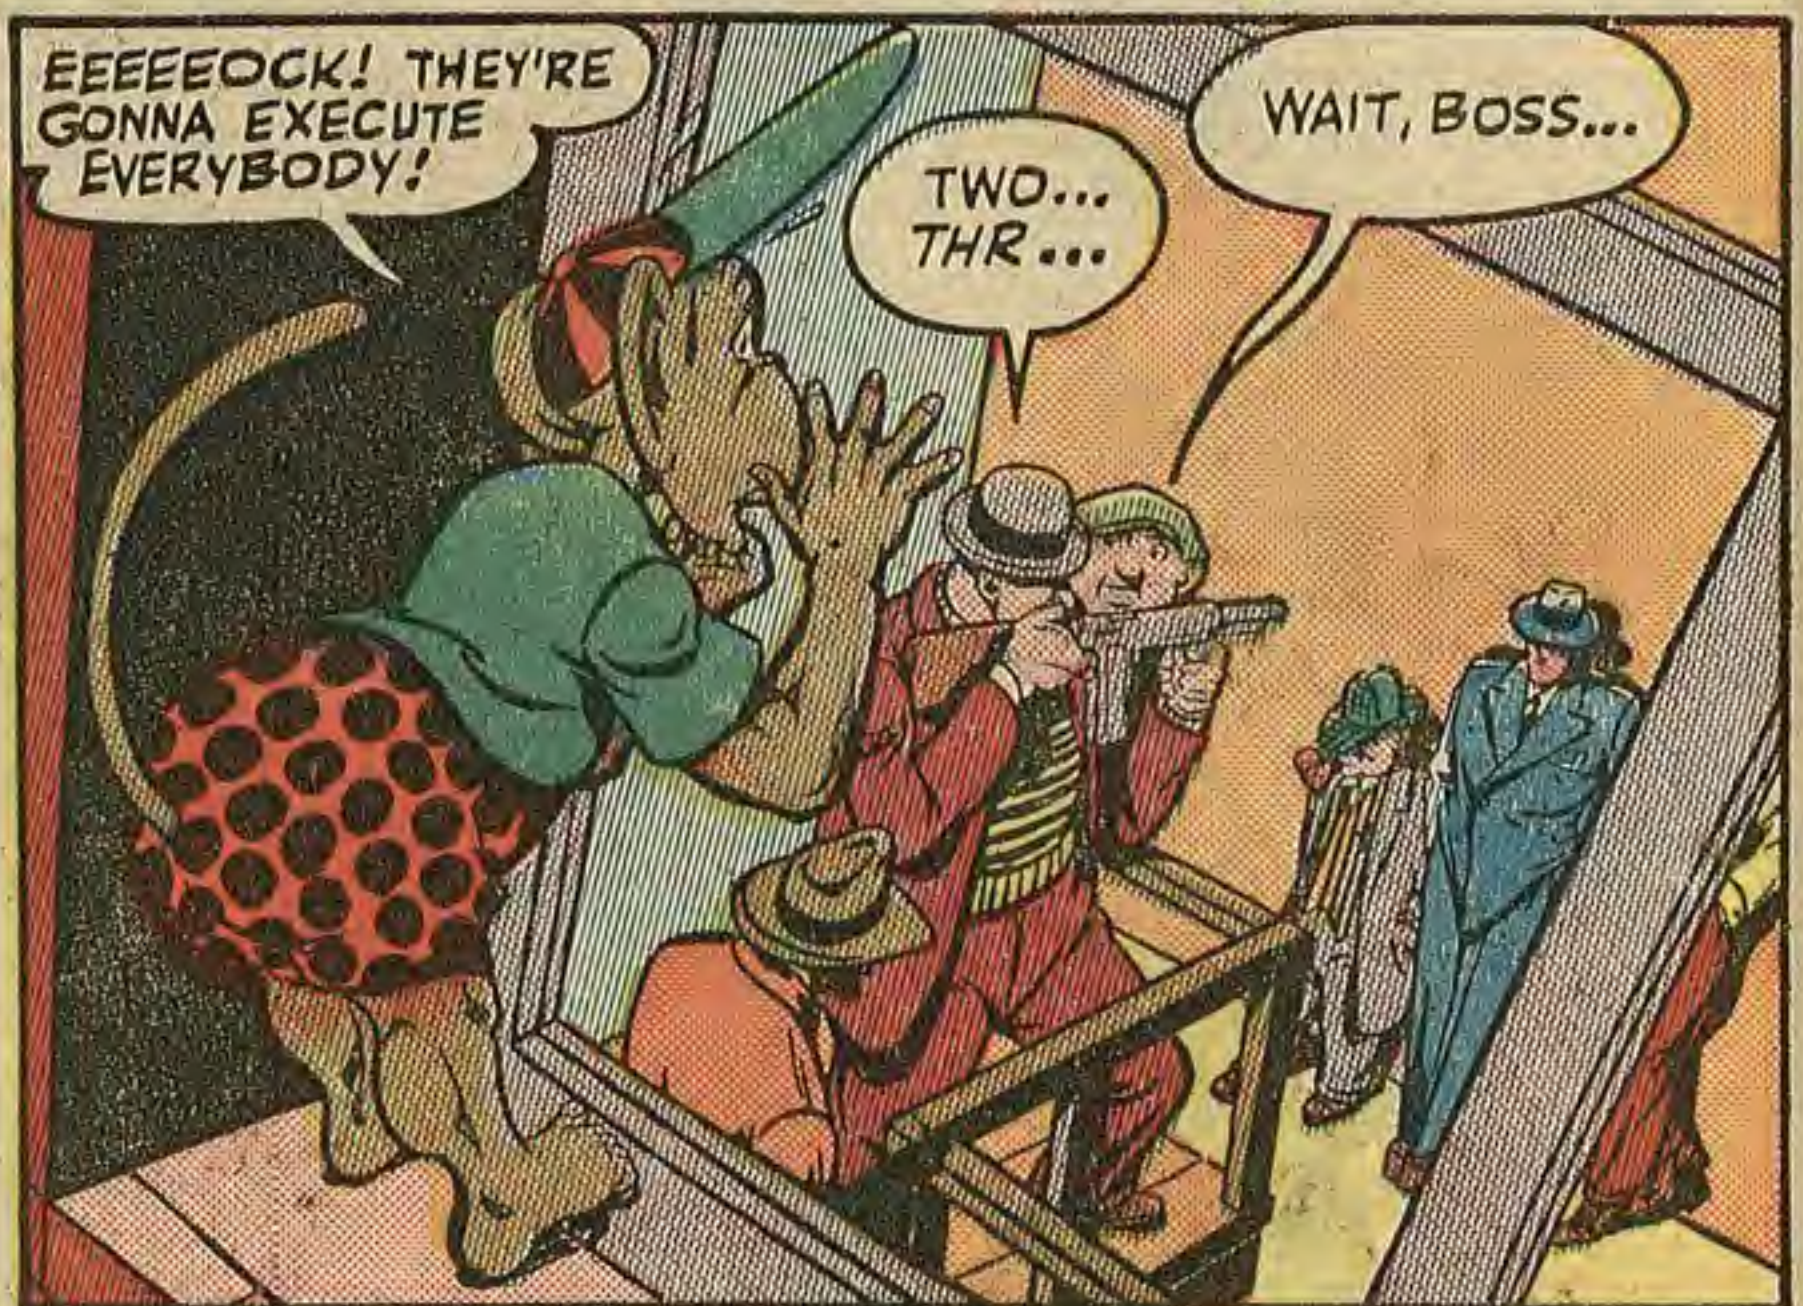

HYPNOTIZED LIKE THAT, MID-  
NIGHT AND DOC'LL DO  
ANYTHING THOSE RATS  
TELL 'EM TO! THIS IS  
AWFUL! I GOTTA  
SAVE 'EM!...

LUCKY I HEARD MIDNIGHT MENTION  
THAT VINCE MCGONIGLE'S MOB USES  
AN OLD WAREHOUSE BY THE  
WATERFRONT FOR A HEAD-  
QUARTERS!

HERE'S THE  
SPOT!

EEEEEOCK! THEY'RE  
GONNA EXECUTE  
EVERYBODY!

TWO...  
THR...

WAIT, BOSS...

WHAT'SA MATTER  
WITH YOU, DOPEY?  
YOU GETTIN' CHICKEN-  
HEARTED ABOUT  
KNOCKIN' MID-  
NIGHT OFF?

NO! I JUST  
GOT A GREAT  
IDEA, BOSS!

INSTEAD OF  
KNOCKIN' 'EM  
OFF, WHY DON'T  
WE MAKE 'EM DO  
A ROBBERY FOR  
US AND THEN  
CONFESS TO  
THE COPS?

WHAT A BRAIN! WE'LL  
HAVE 'EM KNOCK OFF  
THE ACME FUR LOFT  
AND TAKE CARE OF  
THAT NOSEY WATCH-  
MAN FOR US!

BAD-EYE -- LISTEN!  
CAN YUH MAKE 'EM  
DO A ROBBERY  
AND MURDER?

WHY NOT? I  
B. G 'EM THIS  
FAR, DIDN'T I?  
I C'N MAKE  
'EM DO  
ANYTHING!

SMASH COMICS

OH, THIS IS HORRIBLE!  
HYPNOTIZED THAT WAY,  
ANYBODY CAN MAKE  
MIDNIGHT DO ANYTHING  
THEY TELL HIM TO...

**HEY!** WHAT  
AM I SAYING?...  
OF COURSE THEY  
CAN...

SO, IF I TELL 'EM TO START  
MOPPING UP VINCE'S MOB, WE  
OUGHTA HAVE A LOVELY  
SLAUGHTER! WHY DIDN'T  
I THINK OF THIS  
BEFORE?

BUT WAIT! WHY RISK GETTING  
MIDNIGHT AND DOC HURT?  
THOSE THUGS MIGHT  
START SHOOTING...

I'LL MAKE SNIFFER SNOOP  
AND HIS FLEA-BAG DO  
THE FIGHTING AND TAKE  
THE RISK!

**WOW!**

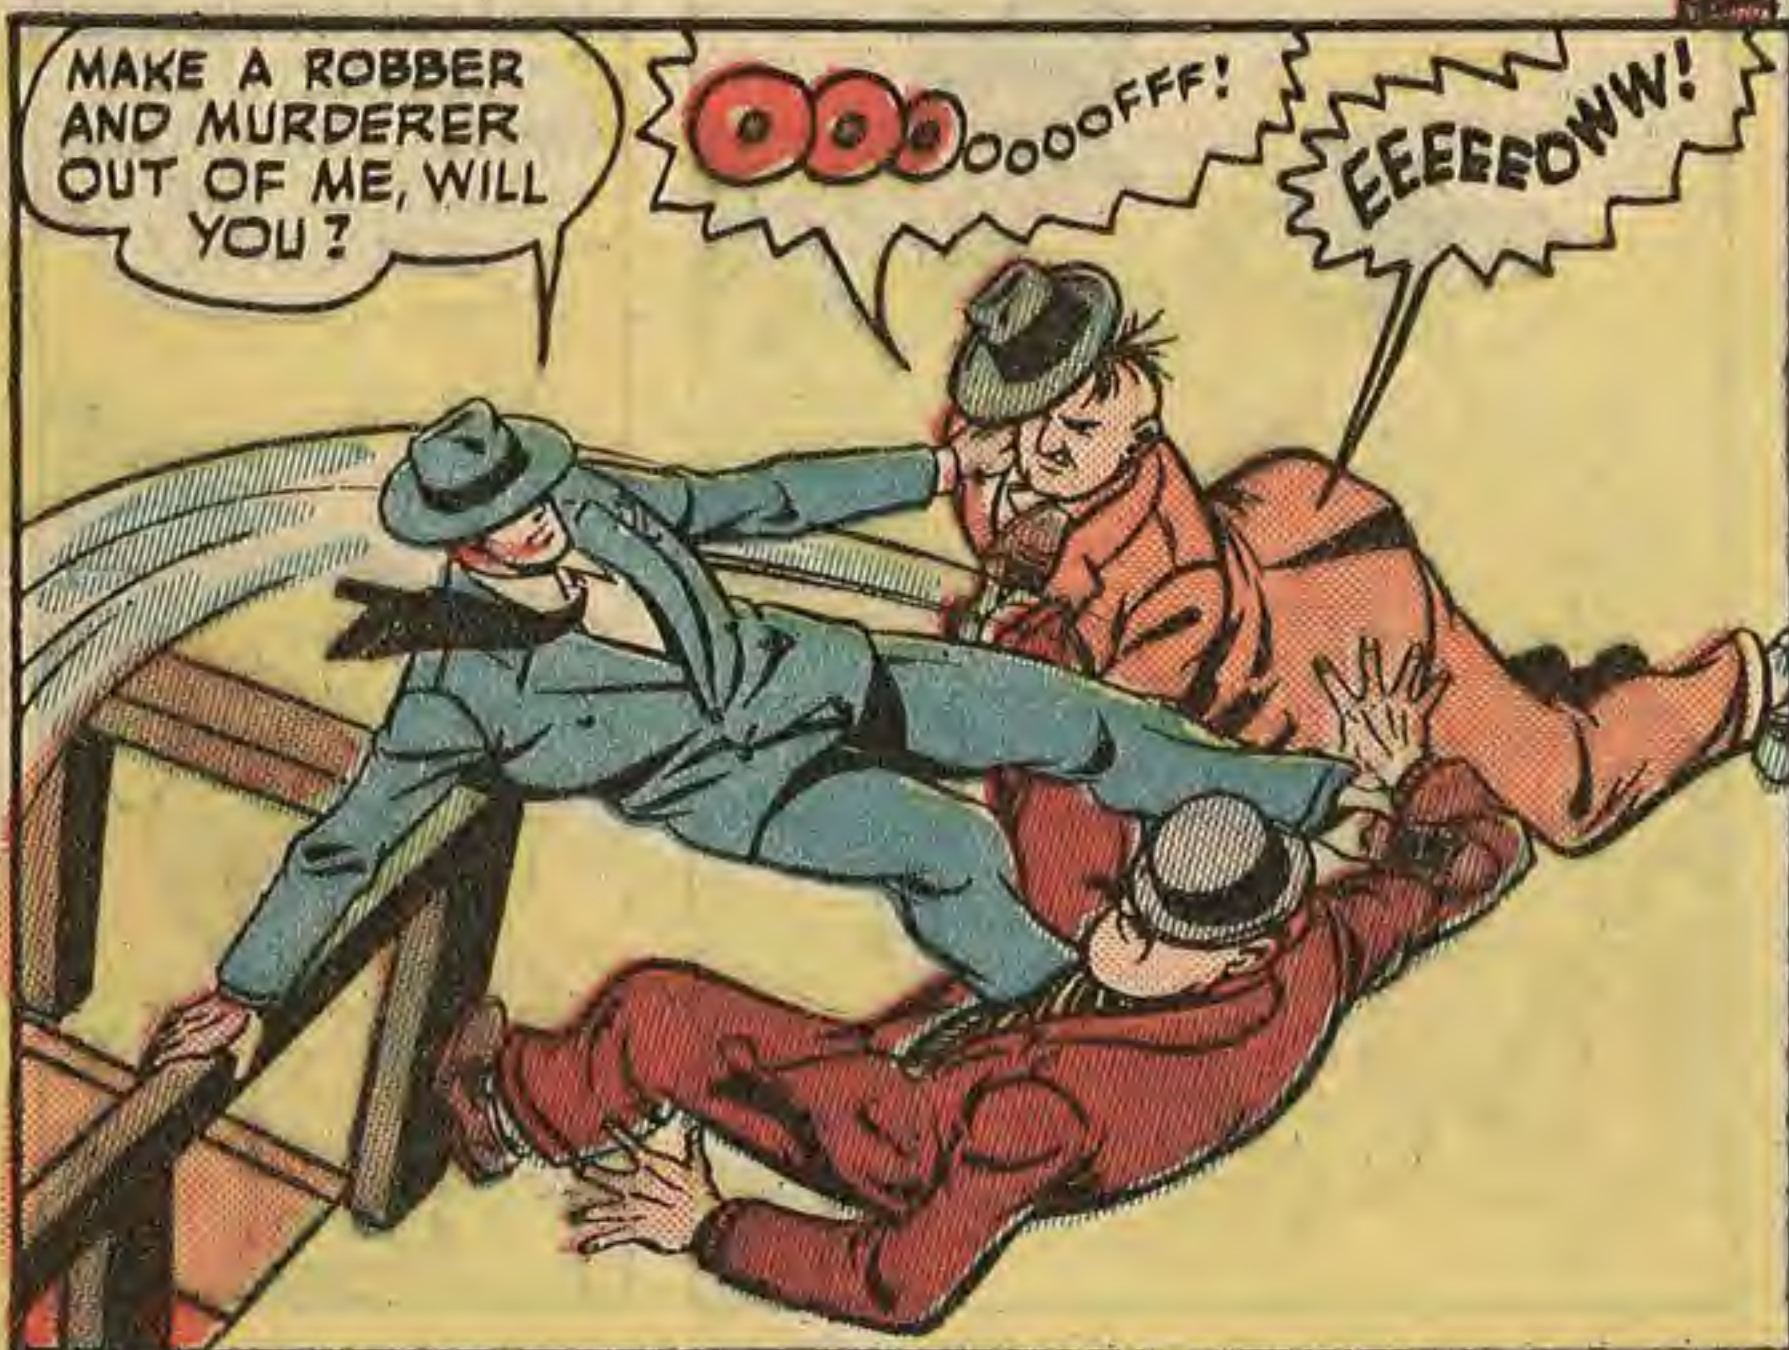

**CRASH!**

SNIFFER SNOOP!  
HOTFOOT! GET  
GOING! MANGLE  
THESE MANGY  
MOBSTERS, YOU  
MORONS! **SLUG**  
SOMEBODY!

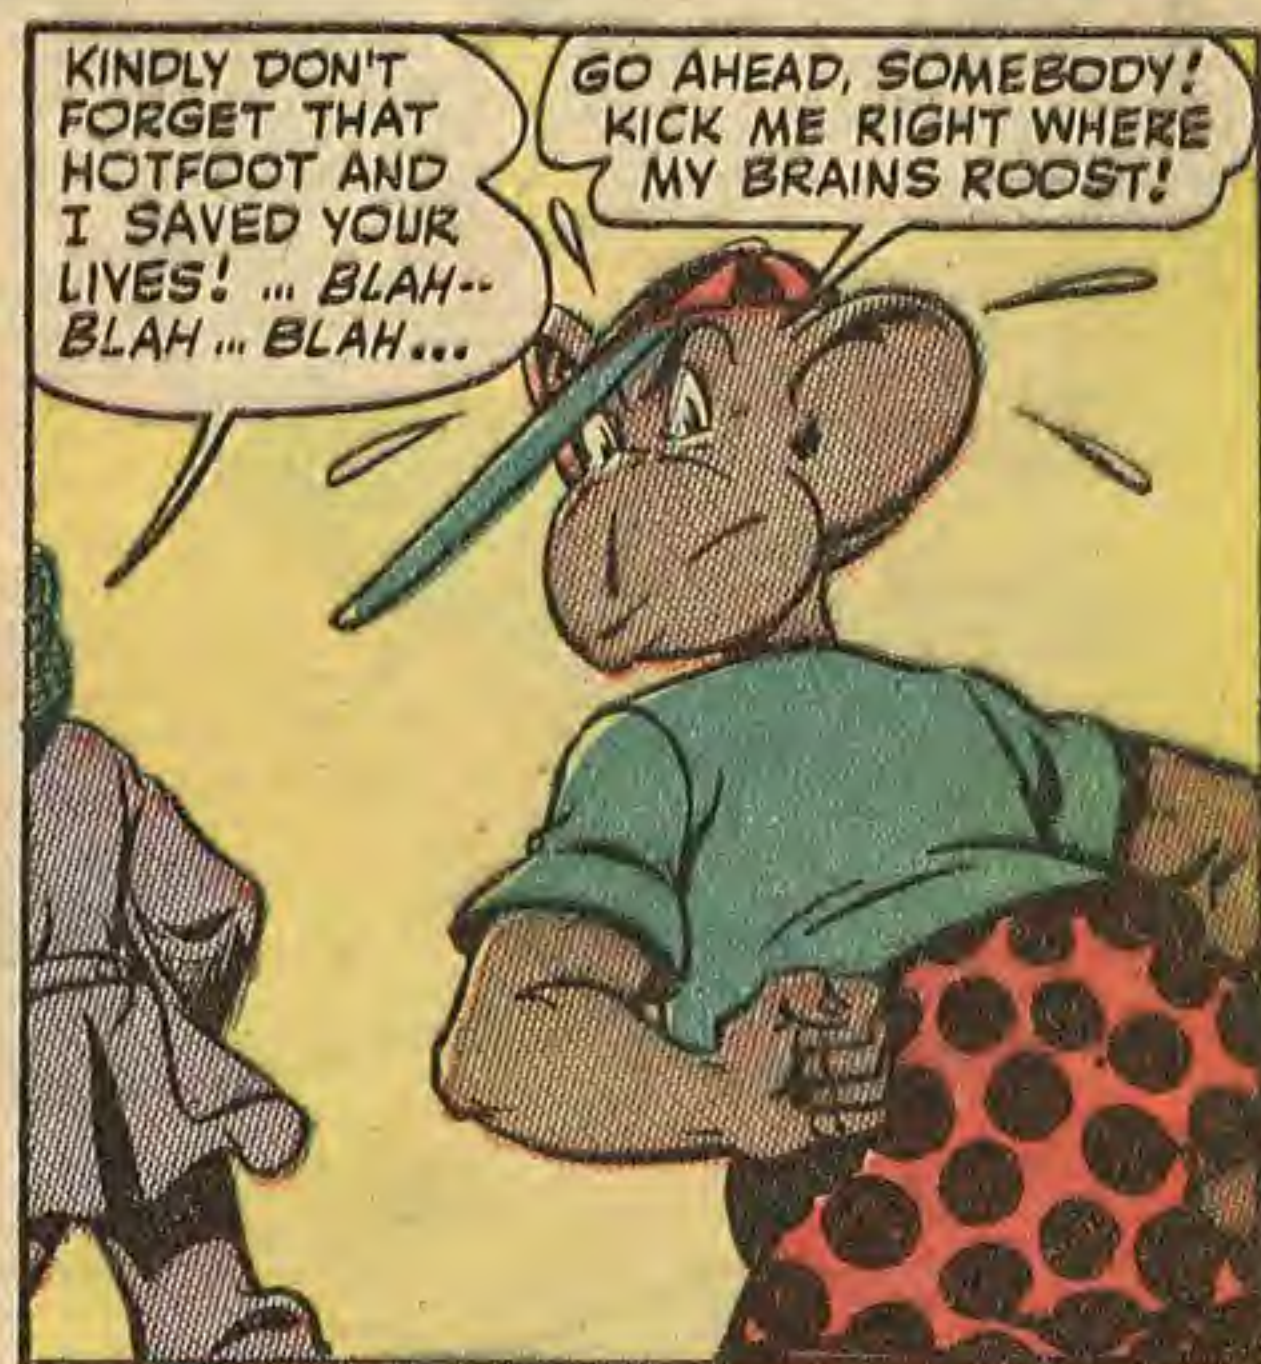

WHAT TH ... ??  
THAT MONK!!

NO! YOU FATHEADED  
DEFECTIVE! ... NOT  
HIM! ... THE CROOKS  
-- BEAT UP THE  
CROOKS!

# Rookie RANKIN

*Rookie Rankin*

# The MARKSMAN

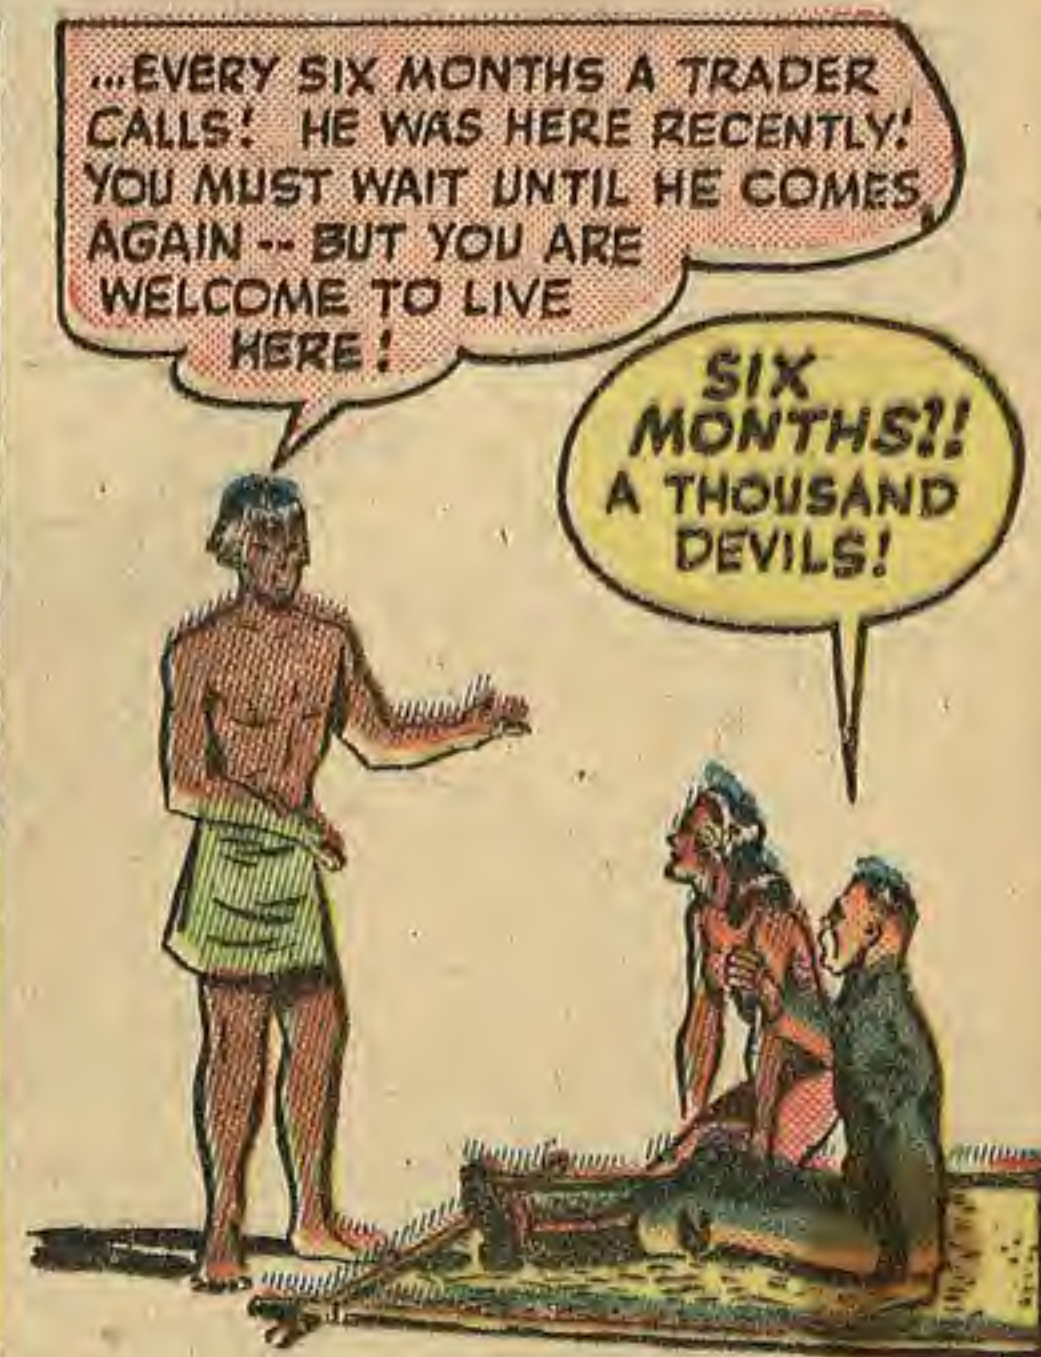

**N**IGHT AND DAY THE KINDLY NATIVES NURSED THE SUFFERING DERELICT, CAST UP OUT OF THE RAGING SEA! TOO LATE THEY LEARNED THAT HE WAS MAJOR SINUSHI, CROWN PRINCE OF TREACHERY, SWORN TO CRUSH THE MARKSMAN AT ALL COST!...

AND WHEN AT LAST THE MARKSMAN MET HIS ENEMY FACE TO FACE, BOTH FOUND THEMSELVES HELPLESS VICTIMS OF A GREATER POWER THAN HATRED OR VENGEANCE -- THE MIGHTY FURY OF THE TYPHOON!

**P**AUNA,  
A TINY  
CORAL  
ISLAND  
IN THE  
SOUTH  
PACIFIC  
.....

WITHOUT WARNING...

WHAT TH...??  
WHERE DID THE  
STORM COME FROM  
SO SUDDENLY?

MARKSMAN!  
TO THE TREES  
--QUICKLY!

BUT SINUSHI  
IS ONLY  
WOUNDED!

NOTHING MATTERS  
BUT THIS! ... A  
TYPHOON IS  
COMING AND THE  
TIDAL WAVES WILL  
SWEEP ACROSS THIS  
WHOLE ISLAND!...  
I'LL TIE  
MYSELF!...

SUDDENLY...

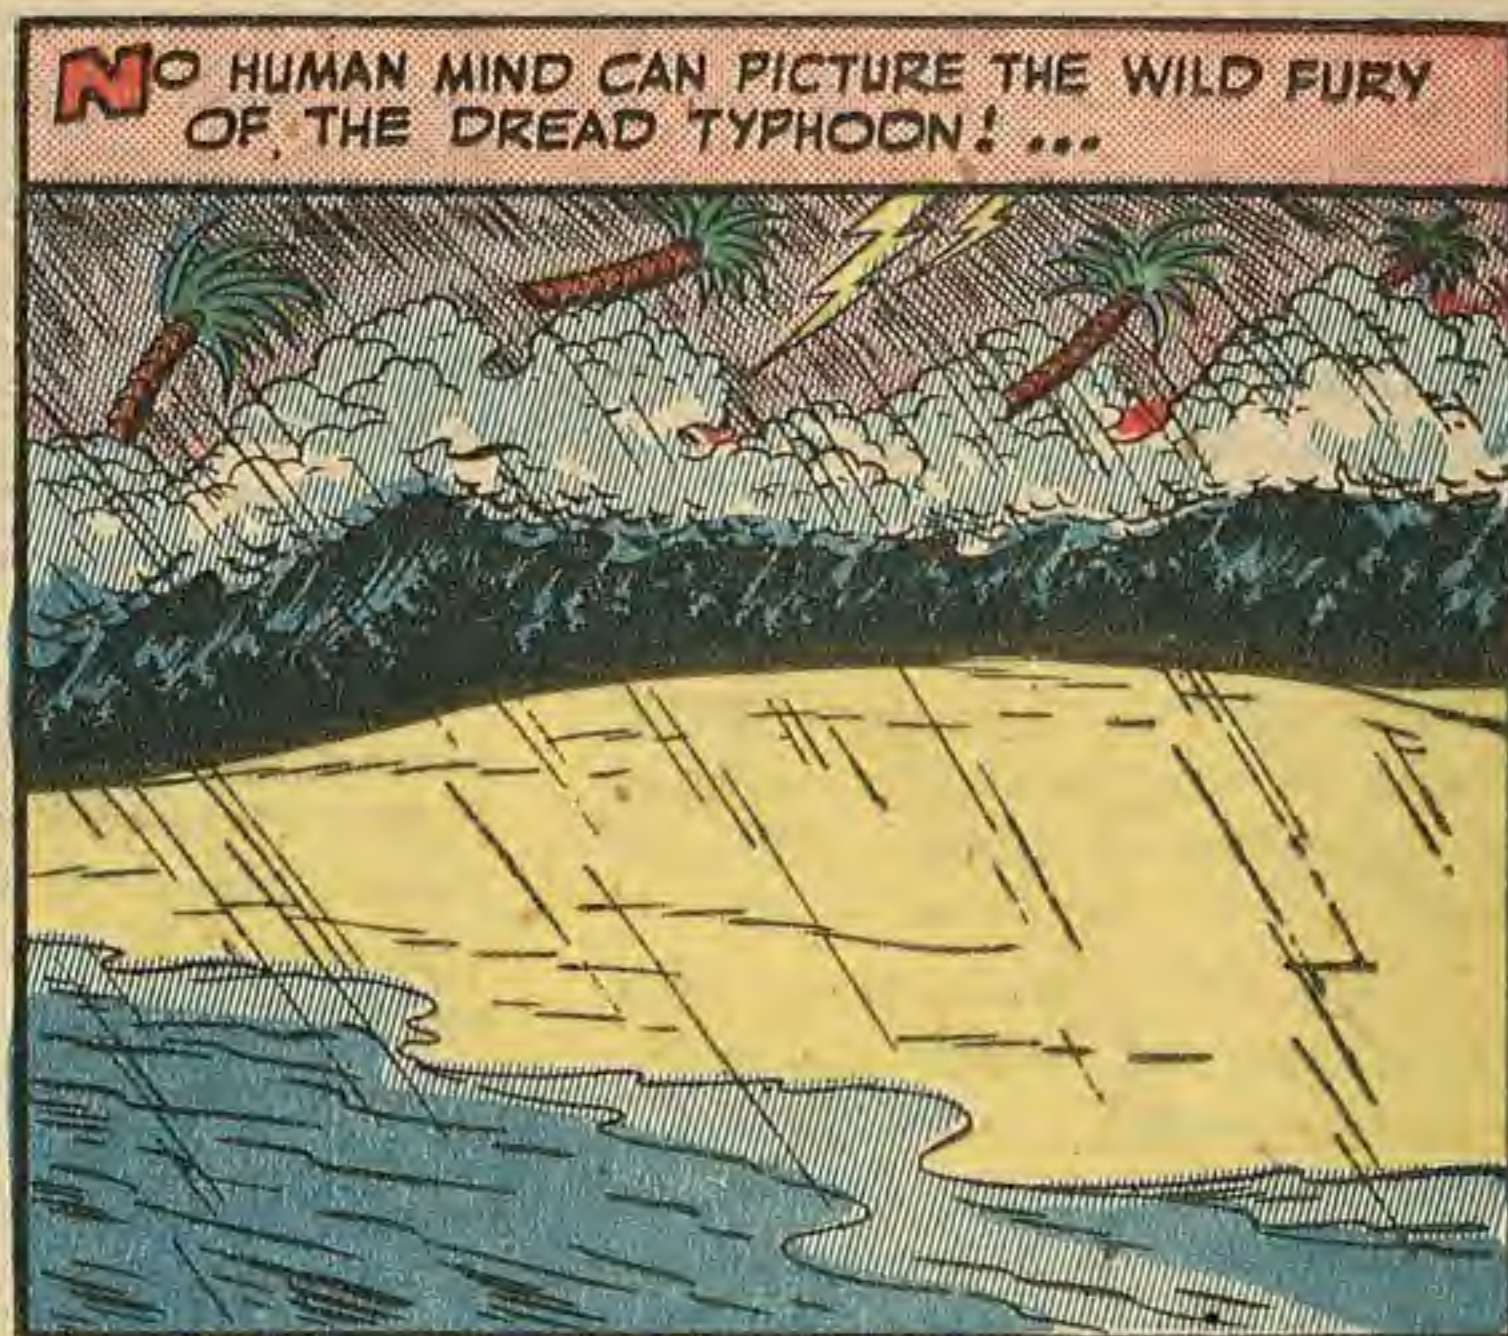

IT GROWS  
DARKER!  
MUST -- KILL --  
MARKSMAN!

MOALA!

SHE'LL BE  
SWEEP AWAY!  
LOOK...

SHE'S BEYOND HUMAN AID  
NOW, ANNA! HOLD YOUR  
BREATH AND PRAY...

NO HUMAN MIND CAN PICTURE THE WILD FURY  
OF THE DREAD TYPHOON! ...

MARKSMAN--  
LOOK!

IT IS THE END  
FOR HIM!

HOURS LATER, WITH THE CALM...

OH, MARKS-  
MAN-- THAT  
POOR GIRL  
AND HER  
BROTHER!

I KNOW, ANNA!  
THEY ARE BUT  
TWO OF THE  
MILLIONS SACRIFICED  
TO YELLOW GREED!  
BUT THEIR TIME OF  
VENGEANCE IS AT  
HAND!

I LEFT WORD  
OF OUR  
DESTINATION  
AT NOMUA!  
A DESTROYER  
WILL COME  
FOR US  
SOON!

I DON'T MIND  
WAITING!...  
THIS IS THE  
ONLY REST  
WE'LL HAVE  
UNTIL  
JAPAN IS  
SMASHED!

# BLOOD

**PLASMA.** You're hearing a lot about it these days—a lot more about the importance of donating your pint. But you aren't hearing enough!

Jimmy Christian decided this after watching the effect of the numerous pleas made by communities, and the poor response of them. He set about to find out just why blood was so important to the wounded soldiers. Here then is the story he pieced together; the story of blood plasma—what it is, what it does, when it was first transfused.

It goes back a long way. History records that in July, 1492—just a few days before Columbus sailed westward—an attempt was made by a Jewish doctor to restore the exhausted vitality of Pope Innocent VIII, victim of an apoplectic stroke, by transfusing blood from a youth.

Today, 452 years later, the transfusion of blood plasma—a rather simple technical procedure—is the miracle of medical science as a lifesaver in civilian as well as military casualties.

There is no record of how that first experiment in blood transfusion was contrived. Doctors of that early day were not acquainted with the circulation of the blood; aseptic surgical methods were unheard of. But in some crude manner, probably by rigid dissection of the veins, and by the use of quills or hollow bones, an endeavor was made to transfer blood from a vigorous boy into the veins of the dying pope. Three healthy youngsters gave their lives in a futile effort to revive the Roman pontiff, but he died on July 25, 1492.

The ancients believed that blood was not only the carrier

of the vital forces of the body but that it was also the abode of the soul. So in order to absorb the very essence of life, Egyptian rulers took baths in tepid human blood for "resuscitation and recuperation."

During the Middle Ages the drinking of human blood was indulged in by various races in an attempt to regain lost youth, as a health restorer, or just as a sort of "quickie". And were we to accept some of the old Greek and Roman stories literally, we might believe that the Hebrews and Syrians as well as the Egyptians actually practiced blood transfusion at a very early date.

It was not until the middle of the 17th century that we again pick up the story of transfusion and learn that a Florentine physician, Francesco Folli, claimed to have transfused blood from one animal (presumably a dog) to another, on August 13, 1654. Two years passed and then Dr. (later Sir) Christopher Wren, designer of St. Paul's Cathedral in London, made a series of transfusion experiments with dogs. With his admitted "insatiable curiosity in all secrets of knowledge," Samuel Pepys made it a point to obtain invitations to important beheadings and similar events, and managed to witness some of Wren's trials and referred to them in that odd diary of his.

Credit for first performing a so-called successful blood transfusion upon a human being goes to a Frenchman, Jean Denys. An account of his experiment done upon a 15-year-old boy was published in July, 1667. This youth, ill of a mysterious fever and suffering from too much bloodletting by the doctors, was about to expire. On this occasion blood for

transfusion was taken from a lamb.

It seems strange that during this period the records show few transfusions given strictly for the purpose of counteracting the loss of blood, most of them being intended to effect the cure of certain ailments. It was thought that sanity could be restored and lost youth regained by animal-blood transfusions, and most of the experiments were conducted along these lines. Stomach, bowel, and lung troubles, fits, leprosy, the itch, cancer, and apoplexy were likewise treated by this method, and speculation went so far as to suggest give-and-take transfusions between husband and wife as a cure for marital incompatibility!

Just why is blood so important? Blood plasma is water in which are dissolved fibrine (an element that assists in coagulation), various chlorides, phosphates, albumen, and other important materials. By weight blood is about 60 per cent plasma. The semi-solid corpuscles (the other 40 per cent) are of two distinct kinds—red and white.

We eat and drink and breathe to give the body fuel—but the energy that sustains us is the blood, our efficient intramural transportation system, which takes up from the food and air what is needed to nourish the different parts of the body.

Some notable discoveries were made in physiology of the blood which greatly influenced later developments in transfusion. In 1907 it was discovered that all blood is alike—that the blood of an American, an Indian, an Igorote, or an Icelander is the same—except for one remarkable therapeutic difference. We know now that this great difference was responsible for a

## SMASH COMICS

great many of the fatal results in earlier transfusions, because agglutination—a clumping together or adhesion of the red cells—often occurred and was the cause of death.

Blundell's conviction that the blood of animals introduced into the circulation of man produced serious results might well have afforded a clue to a speedier discovery that a similar incompatibility existed between the blood of different individuals in all races of man. But almost a hundred years had to elapse before Jansky, a Scandinavian physician, determined that a recipient might safely receive the blood of certain selected donors only. Hitherto no such selection had been made.

A further advance was made in 1914 when sodium citrate was first used as an anticoagulant for the donor's blood. About this same time transfusions by the needle method, rather than by the delicate operation of vein cutting, came into vogue. With these two advances, by puncturing the patient's body with a tiny hollow needle and connecting it with a rubber tube to a bottle of citrated blood, measured amounts could be given—at ordinary temperature and as fast or slow as needed.

The value of transfusion was proved during World War I when shock teams, consisting of one medical officer, one nurse, and one orderly, saved many a man's life by getting blood for transfusion from passing troops, from the slightly wounded, or,

on occasion, actually using their own blood. But there was never enough blood to go around and lives were lost that might have been saved if the supply of donors had been adequate.

During the last year of that war, studies in blood transfusion led to the suggestion that blood plasma could be used to replace whole blood. A series of investigations with liquid plasma demonstrated its many advantages. Now pooled, citrated, and tested blood is centrifuged to remove the red and white corpuscles. Then by a unique method of rapid freezing and vacuum dehydration it is made into a dry, straw-colored powder and packed in vacuum bottles, where it keeps indefinitely and can be transported under battle conditions. When needed for emergency transfusions, this dry plasma is simply mixed with distilled water and used to restore any person who has become a battle or civilian casualty.

The quest for substitutes for human blood has reached the hopeful stage. Already two substitutes from the plant kingdom and one derived from the blood of an animal have achieved results justifying further trials.

These are first, a purified form of the gum of the acacia tree; second, a material known as pectin found in the rind of citrus fruits; and third, the albumin in the blood of cattle.

Other materials which are under study as possible blood substitutes in this and other countries include:

Gelatins derived from the bones of cattle.

Isinglass obtained from the bladders of fish.

Gelatin from uncured calf-skin.

Horse blood serum.

The plasma from beef blood.

Casein, the chief protein of milk.

Scientists of the National Research Council, and the Army and Navy, say that their ultimate objective is to find substitutes that would eliminate the necessity of calling upon human donors for blood to furnish plasma.

But while these experiments are under way, don't be afraid to give your blood in this great emergency. Our blood banks are all far short of their quotas. The average man or woman can safely give blood every three months. Second, third and subsequent donations to blood banks can be given as soon as the hemoglobin, the red coloring matter, has returned to normal. The average time for this after a donation of about one pint is between 49 and 50 days.

Women need a little longer time than men to rebuild their hemoglobin stores, so the intervals between blood donations should be a little longer for them.

This then is the story of blood and transfusion as gathered by Jimmy Christian, who says, "Please give more!"

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACTS OF CONGRESS OF AUGUST 24, 1912, AND MARCH 3, 1933 of SMASH COMICS published bi-monthly at Buffalo, New York for October 1, 1944.

State of Connecticut } ss.  
County of Fairfield }

Before me, a notary public in and for the State and county aforesaid, personally appeared Everett M. Arnold, who, having been duly sworn according to law, deposes and says that he is the Publisher of the SMASH COMICS and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933, embodied in section 537, Postal Laws and Regulations, printed on the reverse of this form to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publisher, Everett M. Arnold, Lucas Point, Old Greenwich, Conn.; Editor, Martin DeMuth, 415 Lexington Avenue, New York, N. Y.; Managing Editor, None; Business Manager, Everett M. Arnold, Lucas Point, Old Greenwich, Conn.

2. That the owner is: (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding one per cent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a firm, company, or other unincorporated concern, its name and address, as well as those of each individual member, must be given.) Everett M. Arnold, Lucas Point, Old

Greenwich, Conn.; Claire C. Arnold, Lucas Point, Old Greenwich, Conn., Smash Comics, Inc., 322 Main Street, Stamford, Conn.

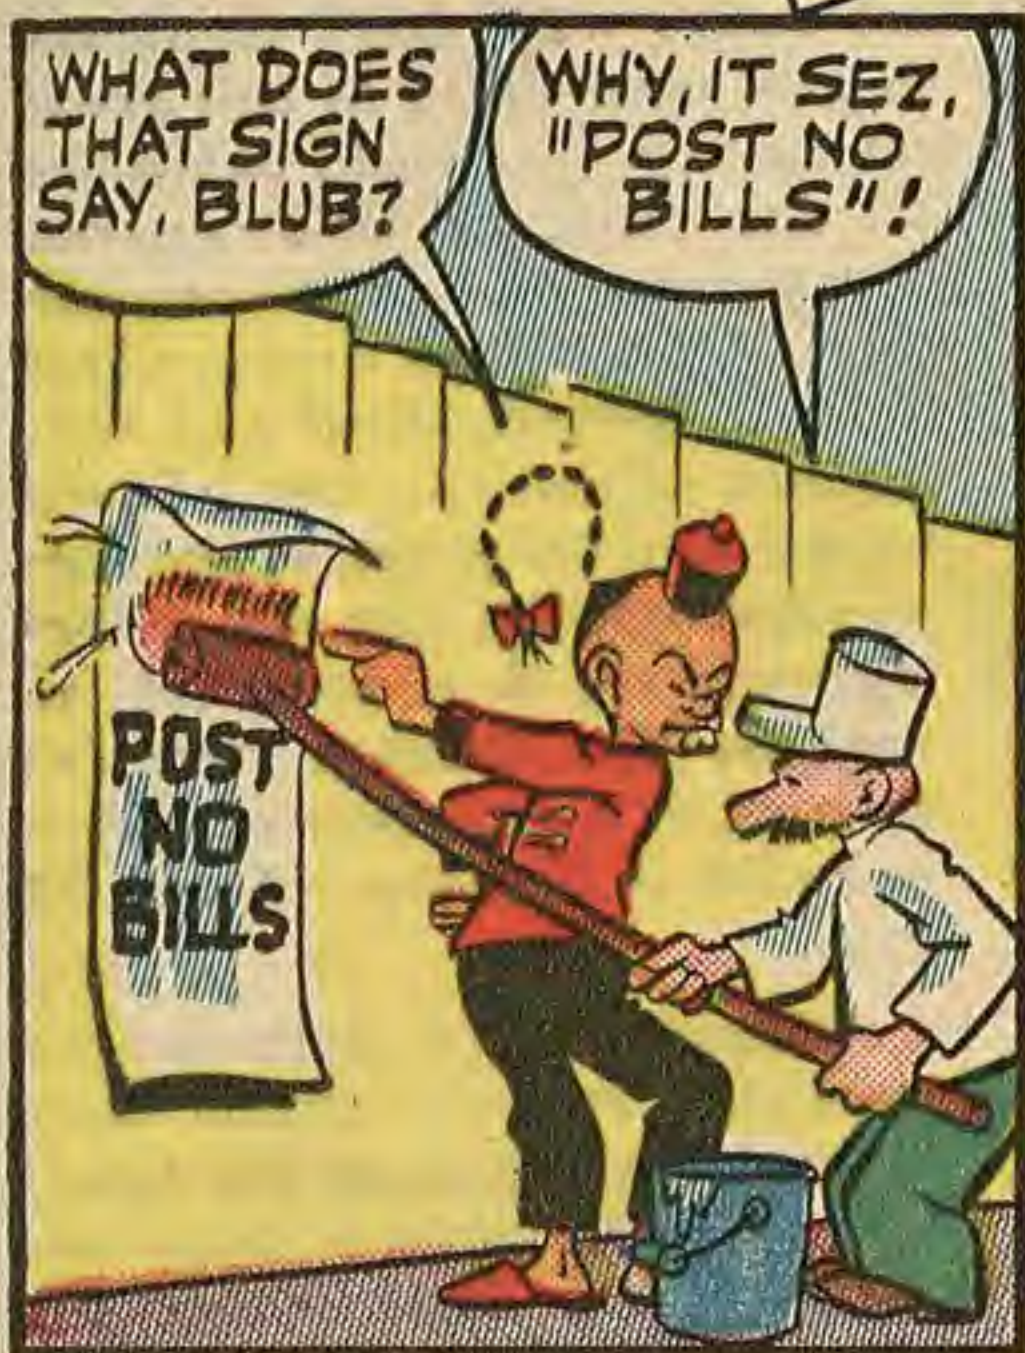

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state.) None.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest, direct or indirect, in the said stock, bonds, or other securities than as so stated by him.

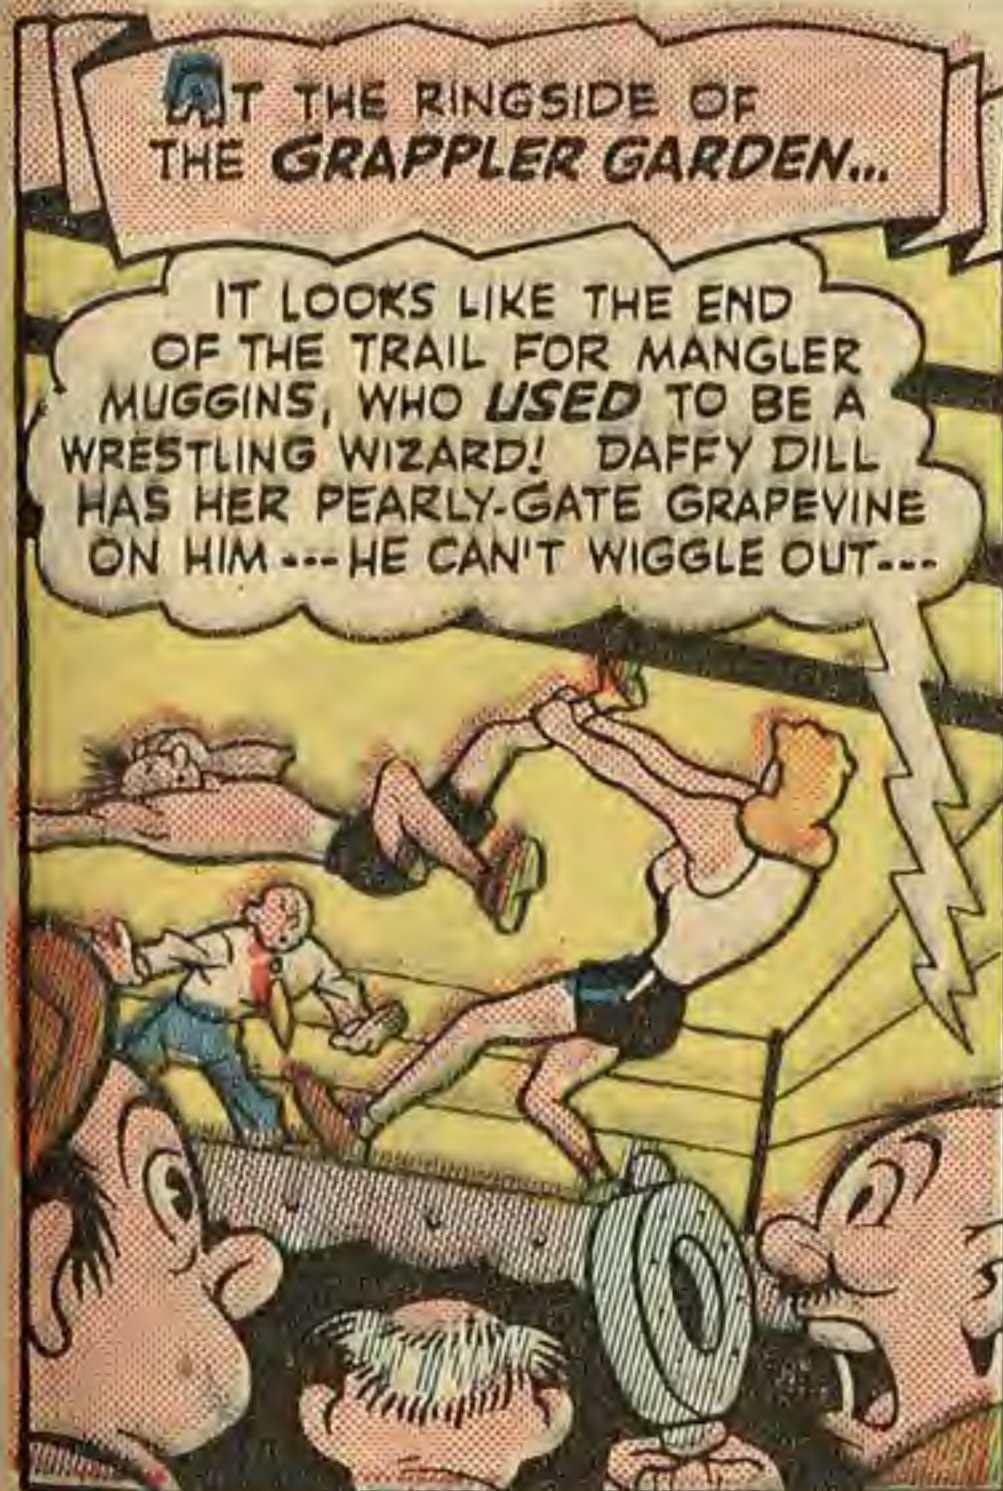

EVERETT M. ARNOLD, Publisher.

Sworn to and subscribed before me this 28th day of September, 1944.  
LOUIS J. KURIANSKY (My commission expires April 1, 1949.)

# Be a RADIO Technician

J. E. SMITH, President, National Radio Institute

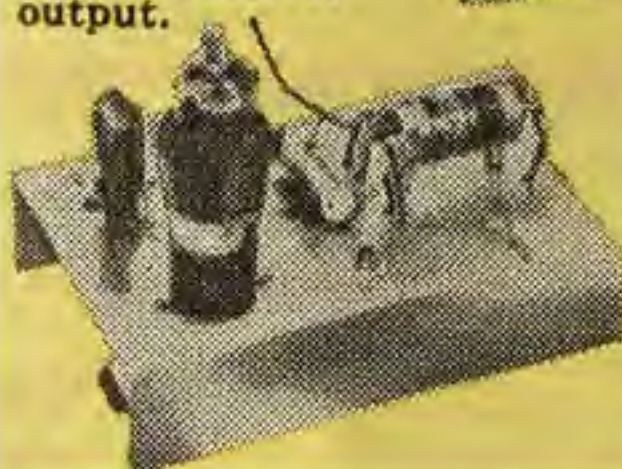

## You Build These and Other Radio Circuits With 6 Big Kits I Send

By the time you've conducted 60 sets of Experiments with Radio Parts I supply, made hundreds of measurements and tests, you'll have PRACTICAL Radio experience valuable in a good full or part-time Radio job!

**Superheterodyne Circuit.** Preselector, oscillator-mixer first detector, i.f. stage, diode detector-a.v.c. stage, audio stage. Bring in local and distant stations on this circuit which you build!

**Measuring Instrument** you build in Course. Use it in practical Radio work to make EXTRA money. Vacuum tube multimeter, measures A.C., D.C. and R.F. volts, D.C. currents, resistance, receiver output.

**A. M. Signal-Generator.** Build it yourself! Provides amplitude-modulated signals for test and experimental purposes. Gives valuable practice!

## I Trained These Men

**\$10 a Week in Spare Time**—"I repaired some Radios when I was on my tenth lesson. I made \$600 in a year and a half, and have made an average of \$10 a week—just spare time." JOHN JERRY, 300 South H St., Exeter, Calif.

**\$200 a Month in Own Business**—"For several years I have been in business for myself making around \$200 a month. I have N.R.I. to thank for my start." A. J. FROEHNER, 300 W. Texas Ave., Goose Creek, Texas.

## Get Into a Busy Field with a Bright Peacetime Future

## I Train Beginners at Home for Good Spare Time and Full Time Radio Jobs

Here's your opportunity to get started in a busy field with a bright peacetime future! There is a shortage today of trained Radio Technicians and Operators. So mail the Coupon for my FREE, 64-page, illustrated book, "Win Rich Rewards in Radio." It describes many fascinating types of Radio jobs, tells how N.R.I. trains you at home in spare time—how you get practical experience building Radio Circuits with SIX BIG KITS OF RADIO PARTS I send!

### Future Looks Bright for Well-Trained Radio Technicians, Operators

Keeping old Radios working is booming the Radio Repair business. Profits are large—and peacetime prospects are bright. Think of the boom in Radio Sales and Servicing when new Radios are available—when Television, Frequency Modulation and Electronics can be promoted.

Broadcasting Stations, Aviation Radio, Police Radio, Loudspeaker Systems, Radio Manufacturing all employ qualified Radio men at good pay—and most of these fields have a big backlog of business that has built up during the war, plus opportunities to expand into new fields opened by wartime developments. You may never again see a time when it will be so easy to get a start in Radio!

### Many Beginners Soon Make \$5, \$10 a Week EXTRA in Spare Time

The day you enroll for my Course I start sending you EXTRA MONEY JOB SHEETS that help show how to make EXTRA money fixing Radios in spare time while still learning.

### TELEVISION, ELECTRONICS FREQUENCY MODULATION

My up-to-date Course includes training in these new developments.

Find Out What N.R.I. Can Do For You  
MAIL COUPON for FREE 64-page book. It's packed with facts—things you never knew about opportunities in Broadcasting, Radio Servicing, Aviation Radio, other Radio fields. Read about my Course—and how you can train at home. Read many letters from men I trained. MAIL COUPON in an envelope or pasted on a penny postcard—J. E. SMITH, President, Dept. 5DA3, National Radio Institute, Washington 9, D.C.

## Our 31st Year of Training Men for Success in Radio

## FREE TO MEN WHO WANT BETTER JOBS

J. E. SMITH, President, Dept. 5DA3,  
National Radio Institute, Washington 9, D. C.

Mail me FREE, without obligation, your 64-page book: "Win Rich Rewards in Radio." (No salesman will call. Please write plainly.)

Name.....Age.....

Address.....

City.....State.....  
(Please include Post Office zone number)

Broadcasting Stations employ N. R. I. trained Radio Technicians as operators, installation, maintenance men and in other capacities and pay well.

Fixing Radios pays many N.R.I. trained Radio Technicians well. Many others hold their regular jobs and make \$5 to \$10 a week EXTRA fixing Radios in spare time.

Radio Operators find good jobs with Shipping Companies, Police Departments, in commercial Aviation. Opportunities are increasing in these fields.

# AUTO REPAIR MEN!

## Are You Short-Handed for Mechanics?

Are You **LOSING MONEY** on Work You Can't Handle?  
— **LOSING TIME** on Hard-to-Do Jobs?

SEE HOW THIS AMAZING MANUAL IS  
"WORTH 2 EXTRA MEN" IN YOUR SHOP!

### You Can Do ANY Basic Repair Job on ANY Car Built Since 1935!

No need to keep on losing money on jobs you just don't have time, or enough hands to do! It's like adding "2 mechanics" to your shop when you put MoToR's AUTO REPAIR MANUAL on the job!

With this book on hand you can repair anything from carburetor to rear end—more quickly and easily! Just look up make, model, and job in the quick index in this great book—and go to work! Clear, illustrated instructions lead you step by step.

To make such an amazing book possible, engineers of MoToR Magazine collected and "broke down" 150 official factory shop manuals for you, spotted all vital repair information you need, dovetailed it all into ONE handy, easy-to-understand book.

#### No Other Manual Like It!

This BIG book—640 pages, 8½ x 11 inches, bound in sturdy cover—brings you nearly 200,000 service, repair, adjustment, replacement, tune-up facts on every car built from 1935 to 1942. More than 1,000 cut-away photos, diagrams, drawings show you exactly WHAT to do, HOW

to do it! Used by U. S. Army, trade, technical schools, thousands of auto servicemen.

The PARTIAL Table of Contents shown here can only give you an idea of all the thousands of jobs this book covers. Hundreds of "war-timely" pointers on maximum mileage and performance with minimum fuel consumption. Full wheel alignment data to prevent tire waste and wear.

#### SEND NO MONEY

Just mail coupon below—without money! When postman brings book, pay him nothing. First make it show you what it's got! Actually try it out on a few extra-tough jobs. See for yourself how its quick index, easy instructions, and clear pictures can save you time, trouble and money—how the book can pay for itself the first few days you use it!

Unless you agree this is the greatest time and work-saver you've ever seen—return book in 7 days and pay nothing. Mail coupon today! MoToR Book Dept., Desk 84D, 572 Madison Avenue, New York 22, N. Y.

#### Nearly 200,000 Service and Repair Facts on All These Makes:

American	Ford	Oldsmobile
Bantam	Graham	Overland
Auburn	Hudson	Packard
Austin	Hupmobile	Pierce
Buick	Lafayette	Arrow
Cadillac	La Salle	Plymouth
Chevrolet	Lincoln	Pontiac
Chrysler	Lincoln	Reo
Cord	Zephyr	Studebaker
De Soto	Mercury	Terraplane
Dodge	Nash	Willys

640 pages; 50 pages of carburetor text, charts, illustrations, covering all models.

Over 450 charts, tables covering important specifications, clearances, measurements, arranged in handy form, including: Tune-up Chart; Valve Measurements; Compression Pressure; Torque Wrench Reading; Starting Motor; Engine Clearance; Main & Rod Bearing Journal Dimensions; Generator; Clutch & Brake Specifications; Front End Measurements, etc.

Detailed, pictured instructions on Engines; Electric, Fuel, Cooling, Lubricating Systems; Transmissions; Wheels; Front Ends; Universals; Rear Ends; etc; etc.

## FREE 7-DAY OFFER
